## Burgundy Grapes of New York

with Yannick Benjamin

New York Riesling and Cabernet Franc have fairly received their share of attention from both the trade and wine-drinking public. But ask a winemaker to show you their Chardonnay or Pinot Noir and you'll be met with a grin ear to ear. In this seminar, we'll explore our own cool climate expressions of those grapes made so famous by our cool climate regional cousin of Burgundy, France: Chardonnay and Pinot Noir.

Presented by the New York Wine & Grape Foundation.
