New York Wines: Best Buys

with Dan Belmont

It is always a great time to get more for your money, and these New York wineries deliver the goods. New York wineries produce a myriad of world-class, quality wines that are impressive on their own, but even more remarkable when paired with food. For those looking to score a great bottle of wine at a great price, just in time to 'taste test' before the holidays, these New York Wine 'Best Buys' are for you. The wines featured on this seminar are all priced under \$30 (many under \$20) per bottle, highlighting some of the best value wines that New York State has to offer.
