\$39.75

Taste New York!

Meet the Makers

with Melissa Stunden

Our neighbour to the south east, the New York Wine region is the closest in growing conditions to Ontario's own Niagara region. We share similar soil types, varietal typicity and geographical location. As a growing region, New York gained traction in the mid 1970's and we are now seeing New York wines hit the scene in Ontario. We invite you to sample and enjoy six different wines from four of New York major growing regions. From Lake Erie to Long Island, you'll be delighted as you experience the differences and similarities between them, and hear the stories directly from minds behind the wines that have recently made their way north to the On-Line Exclusives and Vintages at the LCBO.

Wagner Vineyards
