Sparkling Wines of New York

with Lenn Thompson

Diversity is the greatest strength of New York wine country. There is so much more to it than Riesling, Cabernet Franc, and Chardonnay. Sparkling wine – made in myriad styles of styles using myriad grapes is the unappreciated star of the state’s wine industry. And it’s made in every corner of the state’s cool-climate wine regions. Join writer Lenn Thompson for this tasting of five wildly different sparkling wines from the Finger Lakes, Hudson River Region, and Long Island.
