## Everything is Coming up Rosé

with Wanda Mann

Rosé's approachability and versatility when it comes to food pairings is second to none when carefully crafted ... and not all are created equal. "A rose is a rose" does not apply here in New York, where winemakers work with an array of grape varieties – including Sangiovese, Merlot, Lemberger, Pinot Noir and Cabernet Franc – and apply very different winemaker practices to create a wonderfully diverse range of styles of pink wine. Host Wanda Mann will explore the varied attitudes and processes that winemakers have adopted to craft quality wines in a style that has quickly moved from trend to serious wine category in its own right.
