Grape growers, we need your help.

The grape-growing industry is changing fast, and you've experienced it firsthand. Your participation in our statewide Vineyard Survey is crucial. You're not just contributing; you're shaping the grape crop data that growers and investors urgently need to make smarter decisions.

Please complete our survey and share the grape varieties you're growing so we can better understand the true footprint of wineries and grape growers in our state.

Confidential, Comprehensive, and Collaborative

Together, we can support the grape industry's growth and meet its needs more effectively.
